

Project Management

Over the last decade, the **University of South Wales** has built an impressive portfolio of effective project management delivery.

It is a key area of expertise for the the University and with reliable, trusted and valued trainers, our pass marks speak for themselves.

We are in it for the long haul with you. A significant proportion of our project management delivery is in-house. This means that we are able to tailor the delivery and the project management approach used to meaningfully address your specific project management requirements.

"PRINCE2® is one of the two qualifications I have that has made the biggest impact on my career - the other being my degree.... I'm really glad I chose USW Commercial Services so wanted to let you know and also thank you for providing me with the tools for a completely new career"

Project Manager, NHS Strategic Health Authority, South of England

PRINCE2®

PRINCE2® (PProjects IN Controlled Environments) is a well known, structured project management method designed to be scalable and easily adapted to the needs of different kinds of projects and organisations.

The method is well established as a standard in the UK and is also regularly practised worldwide.

Options:

- PRINCE2 Foundation – 3 days
- PRINCE2 Practitioner – 5 days (our most popular delivery)
- PRINCE2 Re-registration – 2 days (for those who have been certified for 5 years+)

PRINCE2 is a registered trade mark of AXELOS Limited, used under permission of AXELOS Limited. All rights reserved.

Project Management

MSP®

MSP® (Managing Successful Programmes) is a flexible and adaptable approach to project management where a business “vision” is the required outcome. Suitable for any type and size of programme, MSP helps coordinate the management of a set of projects to deliver strategic objectives that require change management, strategic objectives and business benefits delivery.

MSP® deals with the management of the interdependencies and potential conflicts within various projects providing a framework for implementing business strategies or organisational change.

- MSP Practitioner – 5 Days

“Well worthwhile qualification – informative on so many levels”

Corporate Project Manager, RCT Homes

MSP is a registered trade mark of AXELOS Limited, used under permission of AXELOS Limited. All rights reserved.

Agile Project Management

Agile PM is a radically different approach to project management. It focuses on developing solutions incrementally to enable project teams to react effectively to changing requirements whilst empowering project personnel and encouraging increased collaboration and ownership.

Agile provides a holistic approach; embracing change and offering flexibility and can be used in conjunction with methods such as PRINCE2.

Options:

- Introduction to Agile PM – 1 day
- Agile PM – 4 days

“An excellent service providing a bespoke training package tailored specifically for our required skills set. USW Commercial Services developed and deliver an intensive and effective training and workshop package”

Operational Manager, Business Support, Rhondda Cynon Taff CBC

APM Project Management

APM Project Management qualifications incorporate a mix of tools, techniques, processes and skills.

Through real world examples and case studies, depending on the course option selected you can build from developing core project management tools and techniques through to strategic and commercial implications of project management and the technical, organisational and people management skills required to participate effectively within a project team.

Options:

- APM Project Fundamentals – 2 days
- APM Project Management Qualification – 5 days
- APM Project Management Qualification (P2 Practitioners route) – 3 days

“Excellent course – would recommend to anyone with an interest in gaining an overview and understanding of theory and practical application of project management”

APM Fundamentals Delegate, Cardiff Council

Change Management

The **Change Management Practitioner** qualification enhances your ability to embrace and successfully manage the impact of change.

The qualification focuses on the practical aspects of effective change management by giving you the opportunity to develop your capabilities to deal with change before, during and after it occurs. Achieving the qualification will help you unlock resistance to change, enable you to work effectively to deal with and embrace change with your team and speed up the implementation of change initiatives.

- Change Management Practitioner – 5 days

“Miles is very effective and engaging and is a credit to USW Commercial Services. You are very lucky to have him – good trainers are hard to find”

Project Management Delegate, Arriva Trains

For more information about our project management portfolio and to see which dates are available, please visit www.uswcommercial.co.uk

All courses are available in-company which is a preferred and more cost-effective route if you have a number of employees wishing to take the qualification or if your organisation is looking to explore its project management approach.
